---

Dynamic and results-driven Web Developer with 5 years of experience in front-end development. Proficient in JavaScript, Angular 9+, HTML, CSS, Ionic, and Material Design. Demonstrated ability to lead projects, collaborate effectively in team environments, and drive successful outcomes.

---

## PROFESSIONAL EXPERIENCE

---

Globant - IT and Software Development Company

January 2023 – Present

### **Web UI Developer, Ssr**

- Led cross-functional efforts to design and maintain user interfaces for client websites, utilizing HTML, CSS, JavaScript, Ionic, and Angular 9+.
- Successfully resolved complex technical issues, resulting in improved website performance and enhanced user experience.
- Implemented responsive web frameworks, consistently exceeding project deliverables and timelines.
- Spearheading the implementation of data layer variables, triggers, and events in Google Tag Manager to effectively track user interactions and behaviors related to new and used vehicles, enhancing the analytics capabilities and insights for marketing and sales strategies.
- Utilized various design patterns including Model-View-Controller (MVC), Singleton, Observer, and others to architect scalable and maintainable user interfaces.
- Implemented MVC for separation of concerns, Singleton for resource efficiency, and Observer for reactive components.
- Applied design patterns such as Factory, Facade, and Decorator as needed, promoting code organization and extensibility.
- Contributed to enhanced user experiences and client satisfaction through strategic application of design patterns.

Globant - IT and Software Development Company

September 2020 – December 2022

### **Web UI Developer, Jr Advanced**

- Managed end-to-end website and application maintenance, including content updates, debugging, and feature enhancements.
- Coordinated project planning and execution, ensuring adherence to milestones and deadlines within SCRUM and Kanban methodologies.
- Implemented security upgrades and enhancements, enhancing web security and system usability.

Globant - IT and Software Development Company

May 2020 – September 2020

### **Web UI Developer, Jr**

- Collaborated with senior developers to develop a new website using Angular 9+, Ionic, HTML, CSS, and JavaScript.
- Resolved bugs and introduced new features, enhancing overall site functionality and user experience.
- Implemented responsive design techniques, ensuring optimal performance across devices.

Belatrix Software

February 2020 – May 2020

### **Engineer 1**

- Developed and implemented front-end code using HTML, CSS, and JavaScript, resulting in enhanced user experiences and improved functionality.
- Collaborated with cross-functional teams to design and implement new features for web applications.

- Conducted peer code reviews, ensuring code quality and consistency.

Belatrix Software

September 2019 – February 2020

**Intern Engineer**

- Collaborated with senior-level developers throughout various project phases to develop and maintain website projects.
- Maintained existing codebase and functionality, ensuring seamless integration into ongoing operations.
- Developed cross-browser compatible applications within an Agile development environment.

---
